

WEATHER OR CLIMATE, TEACHERS' GUIDANCE

Ask the children to write definitions explaining weather and climate.

Then show the children the following clip:

<http://studyjams.scholastic.com/studyjams/jams/science/weather-and-climate/weather-and-climate.htm> whilst asking them to jot down the key points.

| KEY WORDS | | | |
|-----------|------------|------|------------|
| Term | Definition | Term | Definition |
| | | | |
| | | | |
| | | | |

Ask the children to keep a diary of the weather in the UK for a set period, and compare this with weather from different countries. The children could also research how meteorologists predict the weather. Ask them to write a weather report based on your area on a particular day. Use the type of information shown in the image to help with the reports.
